Portfolio: aversee.vercel.app | Jabalpur, Madhya Pradesh, India

Summary

Software developer with a strong foundation in **data structures, algorithms, and software development principles**, and proven experience **designing, developing, and testing software features** using **React, Node.js, PostgreSQL, Python, and TypeScript** in production and internship settings. Skilled at **debugging, improving system performance, and agile development**, with strong **problem-solving, communication, and teamwork** skills and an active open-source presence on **GitHub**.

Education

Indian Institute of Information Technology, Jabalpur
Bachelor of Technology in Smart Manufacturing (CPI: 7.1/10)

Jabalpur, Madhya Pradesh
Aug 2023 – 2027

Technical Skills

- **Languages & Full Stack:** C++, Python, JavaScript, TypeScript, SQL, React.js, Next.js, Vite, Tailwind CSS, Node.js, Express.js, FastAPI, REST APIs, Prisma ORM, PostgreSQL, MongoDB, Supabase
- **AI/ML, Tools & CS:** TensorFlow, OpenCV, Generative AI, RAG, LLMs, Prompt Engineering, Git, GitHub Actions, Docker, Linux, Postman, Vercel, Capacitor, JWT, RBAC, DSA, OOP, DBMS, Operating Systems, Computer Networks

Experience

SNehra Solutions

May 2026 – August 2026

Full Stack Developer

Remote

- Built and deployed a production placement platform using **React, TypeScript, Node.js, Express.js, Prisma, and PostgreSQL**, developing end-to-end workflows for **authentication, role-based access, cohort enrollment, and placement management**.
- Implemented **JWT authentication, RBAC, REST APIs, and relational database workflows**, integrating **Razorpay payments** and optimizing backend operations to achieve an average API response time of **~150 ms**.
- Automated **CI/CD using GitHub Actions**, running **58 tests across 6 test suites** and reducing build-and-test time to **37 seconds**; debugged and optimized application quality, achieving Lighthouse scores of **100 SEO, 98 Accessibility, and 92 Best Practices**.

Jaipur Metro Rail Corporation (JMRC)

June 2025 – August 2025

Technical Intern

Jaipur, India

- Developed full-stack features for a **metro service management platform** using **React, Node.js, Express.js, and MongoDB**, building reusable UI components and integrating frontend workflows with backend services.
- Developed and integrated **RESTful APIs** with React interfaces and MongoDB data workflows, contributing to feature development, API integration, debugging, and end-to-end application functionality.
- Collaborated in a **5-member Agile team** across frontend and backend development, participating in **code reviews, integration testing, debugging, and sprint delivery** to implement and ship features.

Projects

NeuroSpeak — Assistive Communication Platform

GitHub

React.js • TypeScript • Vite • Supabase • TensorFlow • OpenCV • Leaflet • Capacitor • Tailwind CSS

- Built a mobile-first assistive communication platform with dedicated **user and caregiver workflows** for communication, custom phrases, **emergency SOS**, alerts, profiles, tracking, and onboarding.
- Developed reusable **React + TypeScript** components across **30+ routes**, implementing role-based navigation, responsive layouts, accessibility-focused interfaces, and **TensorFlow + OpenCV** based AI gesture recognition.
- Implemented **Supabase Authentication**, persistent sessions, **Geolocation + Leaflet/OpenStreetMap**, emergency workflows, and a WhatsApp-style communication interface; packaged the application for **Android using Capacitor** with a shared TypeScript codebase.

Achievements & Leadership

- **National Finalist, ABU DD Robocon 2025 — Team Aikyam** — Contributed to **robotics software, automation, and system integration** at India's national robotics competition.
- **Open Source Contributor, Avani — C4GT SheCodes 2026** — Contributed to the **Avani** open-source project under C4GT, IIIT Hyderabad, on **GitHub**.
- **Selected Contributor, GirlScript Summer of Code (GSSoC'24)** — Selected among **20,000+ applicants** for a competitive open-source program.
- **Top 10%, AlgoUniversity Graphs Camp** — Ranked in the top 10% among **80,000+ participants** in **graph algorithms and problem solving**.
- **Core Committee Member, Astronomy & Physics Society, IIITDM Jabalpur (2024–2026)** — Built the society's website using **React, Next.js, TypeScript, and Tailwind CSS**, reaching **1,500+ users** while mentoring **20+ contributors**.
